

Drip, Drop, Stop – Drain Responsibly

28 October 10:00 am – 12:00pm
Pavilion Central Park, Bensalem.
[Google Maps Address.](#)

Heavy rainfall events can make a mess of our community – flooding streets and basements while delivering pollutants to our waterways.

Join our workshop to learn how you can reduce the flow from your property into the streets, sewers, and streams in your neighborhood.

Concepts, demonstrations, and landscaping ideas will be presented.

Refreshments and a raffle will round out the morning. Please register [HERE.](#)

Financial and other support for this project is provided by the Pennsylvania Association of Conservation Districts, Inc. through a grant from the Department of Environmental Protection under Section 319 of the Clean Water Act, administered by the U.S. Environmental Protection Agency.
